About the Editor - Miguel Jiménez

Hello, my name is **Miguel Jiménez**, and I am the editor behind this innovative word search book. Originally from the **Dominican Republic**, my professional career has primarily focused on **software development**. This passion for technology and creativity has led me to explore the world of book publishing, especially interactive ones.

With a solid background in technology, my goal is to merge traditional entertainment with modern interactive elements, such as QR codes, to offer a unique and enriching experience. This book is a reflection of that effort, combining the joy of word searches with technological innovation.

I sincerely hope you find as much enjoyment in solving these word searches as I did in creating them.

If you'd like to learn more about me, feel free to contact me by scanning the following QR code

How to Play?

- **Letter Features** All letters in our word searches are in uppercase to facilitate easier identification and recognition of words.
- **Words can appear in any direction:** vertical, horizontal, or diagonal. Additionally, they can be oriented from left to right and vice versa. Get ready to search in every direction!

QR Code Usage

- **How to Use the QR Code:** Each word search comes with a unique QR code. If you need to check a word or view the complete solution, simply scan the QR code with your phone's camera.
- **Viewing the Solutions:** Scanning the QR code will direct you to a webpage where you can view the solutions. You have the option to see all the answers for the word search or search for a specific word.
